Memorandum

TO: Planning Committee

DATE: Nov. 4, 2011

FR: Executive Director

W.I.: 1211

RE: Consistency Findings for 2011 Congestion Management Programs: Resolution No. 3424, Revised

State law requires that MTC review the consistency of the Congestion Management Programs (CMPs) with the Regional Transportation Plan (RTP), referred to here as the Transportation 2035 Plan, in order to incorporate projects from the CMPs into the Regional Transportation Improvement Program (RTIP).

MTC has received draft CMPs from seven counties: Alameda, Contra Costa, Marin, San Francisco, San Mateo, Santa Clara, and Solano Counties. Sonoma and Napa Counties have elected not to prepare CMPs, pursuant to Government Code Section 65088.3.

Staff has reviewed the draft CMPs for consistency with the Transportation 2035 Plan in preparation of the 2010 RTIP, based on MTC's *2009 Guidance for Consistency of Congestion Management Programs (CMPs) with the Regional Transportation Plan*, in the following five areas:

- Goals and objectives established in the RTP,
- Consistency of the system definition with adjoining counties,
- Consistency with federal and state air quality plans,
- Consistency with the MTC travel demand modeling database and methodologies; and
- RTP financial assumptions.

Review of Projects in the CMPs

CMPs may include projects that are beyond the financial capacity of the RTP, or that are local in nature. MTC's consistency findings for the CMPs are limited to those projects that are included in the RTP, and do not extend to other CMP projects. Inclusion of projects in the CMP that are not in the RTP does not affect overall consistency findings. Staff has provided comments to the CMAs regarding the consistency of CMP projects with the RTP.

Modeling Information

The consistency of CMP models has been previously reviewed, and detailed comments have been provided to the CMAs. Due to the highly technical nature of travel demand modeling, any issues that arise regarding modeling consistency are addressed separately.

Staff Recommendation

Staff recommends a finding of consistency with the Transportation 2035 Plan for the 2011 CMPs from Alameda, Contra Costa, Marin, San Francisco, San Mateo, Santa Clara, and Solano Counties, based on the final CMPs being consistent with the drafts that have been reviewed.

Staff requests referral of Resolution 3424, Revised, as attached, to the Commission for approval.

Steve Heminger
